REPAIR

Save money and help the environment by taking your broken items to your nearest Repair Café or even repairing them at home!

Repair Cafés

A Repair Café is a community initiative offering a friendly, social meeting place where people can bring their broken household items to be repaired by a team of multi-skilled volunteer repairers.

Depending on the volunteers available, Repair Cafés can fix electrical appliances, electronic devices, furniture, jewellery, ceramics, clothes, toys, clocks...and much more!

They usually run for about 3-4 hours on a Saturday once a month in an easy to access venue. Refreshments are available while you wait for a repairer to be free and these raise valuable funds for the initiative.

Buckinghamshire already has a growing network of Repair Cafés and there are more new ones opening every year. Find your nearest and check dates and times here:

The Repair Finder

A national database of verified repairers started by passionate repairer Frank from Marlow Repair Café. Just enter the type of thing you want to repair and enter your location to see your local options: www.therepairfinder.com

Repair websites

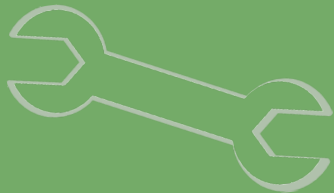

ifixit.com - provides manuals, repair guides and even parts and tools for your electronics and household items.

instructables.com - a vast library of craft and repair projects uploaded by users.

wikihow.com - step-by-step picture guides on a wide range of problems like fixing laptops, sharpening tools & wiring a plug.

wiki.restarters.net - The Restart Project aims to fix our electronic waste problem. This wiki is full of tips, guides and skills sharing.
